REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable over the cited prior arts because said prior arts do not disclose or make obvious method for microencapsulating a magnetic agent in a matrix material by heating an emulsion of microdroplets of the agent and matrix material dispersed in a hydrophobic continuous phase at a first temperature, and for a time to crosslink the matrix material comprising the agent. Mathiowitz et al 6,143,211 discloses process for preparing microparticles through phase inversion phenomena comprising forming a mixture of a polymer and a solvent, wherein the solvent is present in a continuous phase, and introducing the mixture into an effective amount of a nonsolvent to cause the spontaneous formation of particles. There is no disclosure of the use of magnetic particle agent nor the use of oil and surfactant as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
